

Subject Files -- file list

Updated September 7, 2019

These files contain small pieces of ephemera -- postcards, handbills, flyers, and other single-sheet papers.

Bold -- "Parent" Categories

Italics -- Files that share the name with their "parent" categories. The folders do not actually say "General"

~~Strikethrough -- File is Missing~~

DO YOU NEED TO CREATE A NEW SUBJECT FILE? It's possible that there's no subject file for the material you're putting away. In that case, please find a file folder and write the subject on that. File it in correct alphabetical order, and then write your new subject on this sheet in pen or pencil. Thanks!

Note on Mini Liu subject files: these files were donated in their current form by a donor who had maintained her own subject files. They have been maintained in their original condition, but have been inter filed with our existing subject file collection for ease of access.

15-M Movement

AANCO
